The purpose of the weekly *Influenza Watch* is to summarize current influenza surveillance in San Diego County. *Please note that reported weekly data are preliminary and may change due to delayed submissions and additional laboratory results.*

**Current Week 2 (ending 1/14/2017)**
- 442 new influenza detections reported: *Elevated*
- 5% influenza-like-illness (ILI) among emergency department visits: *Expected level*
- 6 influenza-related deaths reported this week
- 8% of deaths registered with pneumonia and/or influenza: *Expected level*

**Virus Characteristics**
- **83.1%** Influenza A
- **0.6%** Influenza A (H1N1)pdm09
- **9.2%** Influenza A (H3) Seasonal
- **5.6%** Influenza B
- **1.5%** Influenza A/B

**Current Season Summary**
- **1,788 Total Cases**
- **37 ICU Cases**
- **14 Deaths**
- **14 Outbreaks**

**Table 1. Influenza Surveillance Indicators**

| Indicator                                      | FY 2016-17 | FY 2015-16 | Prior 3-Year Average
|-----------------------------------------------|------------|------------|-------------------|
| All influenza detections reported (rapid or PCR) | Week 2 442 Week 2 156 FYTD 1,788 Week 2 624 | Week 2 474 Week 2 603 FYTD 1,646 Week 2 603 FYTD 1,646 | **2013-14** 68, **2014-15** 97, **2015-16** 70
| Percent of emergency department visits for ILI | 5% 4% 9% 8% | 5% 5% 8% | **2013-14** 8%, **2014-15** 8%, **2015-16** 8%
| Percent of deaths registered with pneumonia and/or influenza | 8% 8% 9% 9% | 9% 9% | **2013-14** 8%, **2014-15** 8%, **2015-16** 8%
| Number of influenza-related deaths reported* | 6 4 14 0 3 5 10 | 3 5 10 | **2013-14** 3, **2014-15** 5, **2015-16** 10

* FYTD=Fiscal Year To Date (FY is July 1 - June 30, Weeks 27-26). Total deaths reported in prior years: 68 in 2015-16, 97 in 2014-15, and 70 in 2013-14.

* Previous weeks case counts or percentages may change due to delayed processing or reporting.

** Includes FYs 2013-14, 2014-15, and 2015-16.

* Current FY deaths are shown by week of report; by week of death for prior FYs.
Influenza Outbreaks in Long-Term Care Facilities

Influenza activity is high and rapidly increasing in California. The California Department of Public Health (CDPH) has recently received numerous reports of influenza outbreaks in health care facilities, particularly in long-term care facilities (LTCFs). Twelve of the 14 confirmed influenza outbreaks in San Diego County this season have been in LTCFs. LTCFs should be prepared to provide care safely without putting residents at risk during influenza season.

On January 13, 2017, CDPH released an all facilities letter (AFL 17-02) that reiterates established guidance on the prevention and control of influenza outbreaks in LTCFs. Infection control measures for LTCF residents with suspected or confirmed influenza include standard and droplet precautions. Additional measures to reduce transmission risk include having symptomatic residents stay in their own rooms as much as possible, restricting common activities, and having meals served in rooms. Employees and visitors should be screened for illness. Ill health care personnel should be placed on sick leave and ill visitors discouraged from entering the facility.

In October, 2016, CDPH updated guidance for LTCFs in Recommendations for the Prevention and Control of Influenza – California Long-Term Care Facilities. Detailed guidelines and recommendations are also available from the Centers for Disease Control and Prevention in Interim Guidance for Influenza Outbreak Management in Long-Term Care Facilities.

An influenza outbreak in any institutional setting (defined as at least one case of laboratory confirmed influenza in the setting of a cluster of two or more cases of influenza-like illness within a 72 hour period) should be reported immediately to the County Epidemiology Program.

Count of San Diego
PUBLIC HEALTH SERVICES
Influenza Reporting in San Diego County

Local providers are encouraged to report laboratory positive influenza detections to the County Epidemiology Program by FAX (858) 715-6458. Please fax a Case Report Form and/or a printed laboratory result, and indicate if the patient was admitted to ICU or died, and/or is a resident of a congregate living facility.

For questions regarding sending specimens to Public Health Laboratory (PHL), call (619) 692-8500. Click here for the updated PHL PCR Test Request Form. Contact the Epidemiology Program with any questions at (619) 692-8499 or by email to: EpiDiv.HHSA@sdcounty.ca.gov.
