The Adventure Begins

The means by which enterprising individuals claw and scratch or sometimes merely stumble—into the world of professional writing is myriad. Many gain a foothold in other aspects of the entertainment industry, before deciding to cross over into screenwriting or in different parts of the entertainment industry, before deciding to cross over into screenwriting.

- William Belford, MD
- Arthur H. Hurd, MD
- Donald C. Shelby, MD
- Sidney Rosin, MD
H. Glenn Kellogg, MD, documented Chapter history in a letter entitled *Roots of Chapter 3, AAP*. His records show that Drs. E.H. Christopherson, William C. Black, and 12 others met at the Cuyamaca Club in the 1940s to organize the Pediatric Section of the County Medical Society. This group had regular meetings despite WWII. Eventually they evolved into the San Diego Pediatric Society and then into Chapter 3, District IX of the American Academy of Pediatrics, in 1961.

In the 1960s, we were one of seven new American Academy of Pediatrics Sections (Chapters) created. During this tumultuous decade, Head Start and several medical achievements were ushered in. The San Diego Section of the AAP (AAP-CA3) was formed on September 27, 1961. By 1969, there were 10,857 AAP members nationally. National AAP just celebrated its 90th anniversary in 2020.

“the spirit of friendliness, good fellowship, and fun which bodes well for the future success of our new organization.”

- William C. Black, MD
What was happening in 1961, the year the Chapter was officially formed.

Our Current Programs
AAP California Chapter 3 History

The Chapter Was Officially Formed on September 27, 1961 – Happy 60th Anniversary!

1934
Early Beginnings of the Chapter
Pediatric Section of the San Diego County Medical Society is formed

1961
AAP California Chapter 3 Formed
9/27/61 AAP-CA3 is founded, representing San Diego and Imperial Counties

1998
AAP-CA3 becomes a 501c3
July 1998 starts the beginning of the chapter’s official non-profit projects

2006
First Staff Team
Chapter becomes a “small business,” Meredith Kennedy, MPH, Pradeep Gidwani, MD, MPH and Lily Valmidiano, MPH, work on HDS

2021
60th Anniversary
Celebrating 60 years as a Chapter on 9/27/21. Up to 21 staff members and several projects for healthy kids
All About San Diego’s Kids

MISSION
AAP-CA3 is dedicated to achieving physical, mental health, and social well-being for every infant, child, and adolescent in San Diego and Imperial Counties and supports our members in this endeavor.

VISION STATEMENT
Our vision is that every child and youth reach their full potential.
Beginning in 2006, the Chapter provides the countywide coordination and support to the First 5 Commission of San Diego’s Healthy Development Services (HDS) project.

The HDS project provides developmental and behavioral services to children with mild to moderate needs.
First Steps partners with families and provide parents with voluntary home-based services.

Long term support prepares children to enter school as active learners, and ensure that all children are healthy, loved and nurtured.
Since 2005, AAP-CA3 has given our communities children over ONE MILLION books!

Supporting Early Literacy and Brain Development

Caring for San Diego’s Kids:
AAP-CA3’s Featured Programs
DID YOU KNOW?

• Reach Out and Read San Diego is an evidence-based program. Medical providers promote early literacy, school readiness and early relational health at every well-child check.

• Reach Out and Read San Diego is one of our programs that is not fully funded. It is supported by a combination of public funds and private funds from generous donors like yourself.

• This is our only fundraiser of the year for this program.

• Donations are spent directly on books and provided to pediatrician’s offices, often in underserved neighborhoods.

• Our chapter gives approximately 90,000 books a year through local pediatricians’ offices!
Caring for Our Members:
AAP-CA3 Benefits
The Chapter has been very busy during the pandemic!

Could we have imagined this challenging time 60 years ago?

AAP-CA3 pediatricians contributed to many pandemic communications such as:

- Doctors Cite Harm to Children Shut Out of School
- Recommendations for Urgent Reopening of Schools
- Quaran-Teen: Adolescent Mental Health during the COVID Crisis
- Pediatricians: Pandemic causing Increased rates of Childhood Obesity
