

## Responding to ACEs in the Community Webinar Facilitator Guide

**Web Link to Frequently Asked Questions Video:** <https://youtu.be/SMZEsQgZ1Ew>

Welcome! Thank you for your interest in learning more about Responding to ACEs in the community!

During the recorded webinar, participants will be encouraged to participate in various discussions. We strongly encourage you to pause and engage your group in discussion during these opportunities. By doing this, you will give your group a break from simply sitting and viewing. In addition, the added discussion can help enhance understanding and transfer of knowledge.

While viewing you will see opportunities to pause the video and participate in discussion with your group. Then, restart the webinar after your group has done the reflection/activity or has finished the discussion.

The group facilitator should review the webinar in advance to prepare.

We have included the following resources to support your learning

- Pediatric ACE Screening Clinical Workflow and ACEs and Toxic Stress Risk Assessment Algorithm – Pediatrics
- ACE Screening Script Scenarios
- Discussing results script scenarios
